

UNO

Start

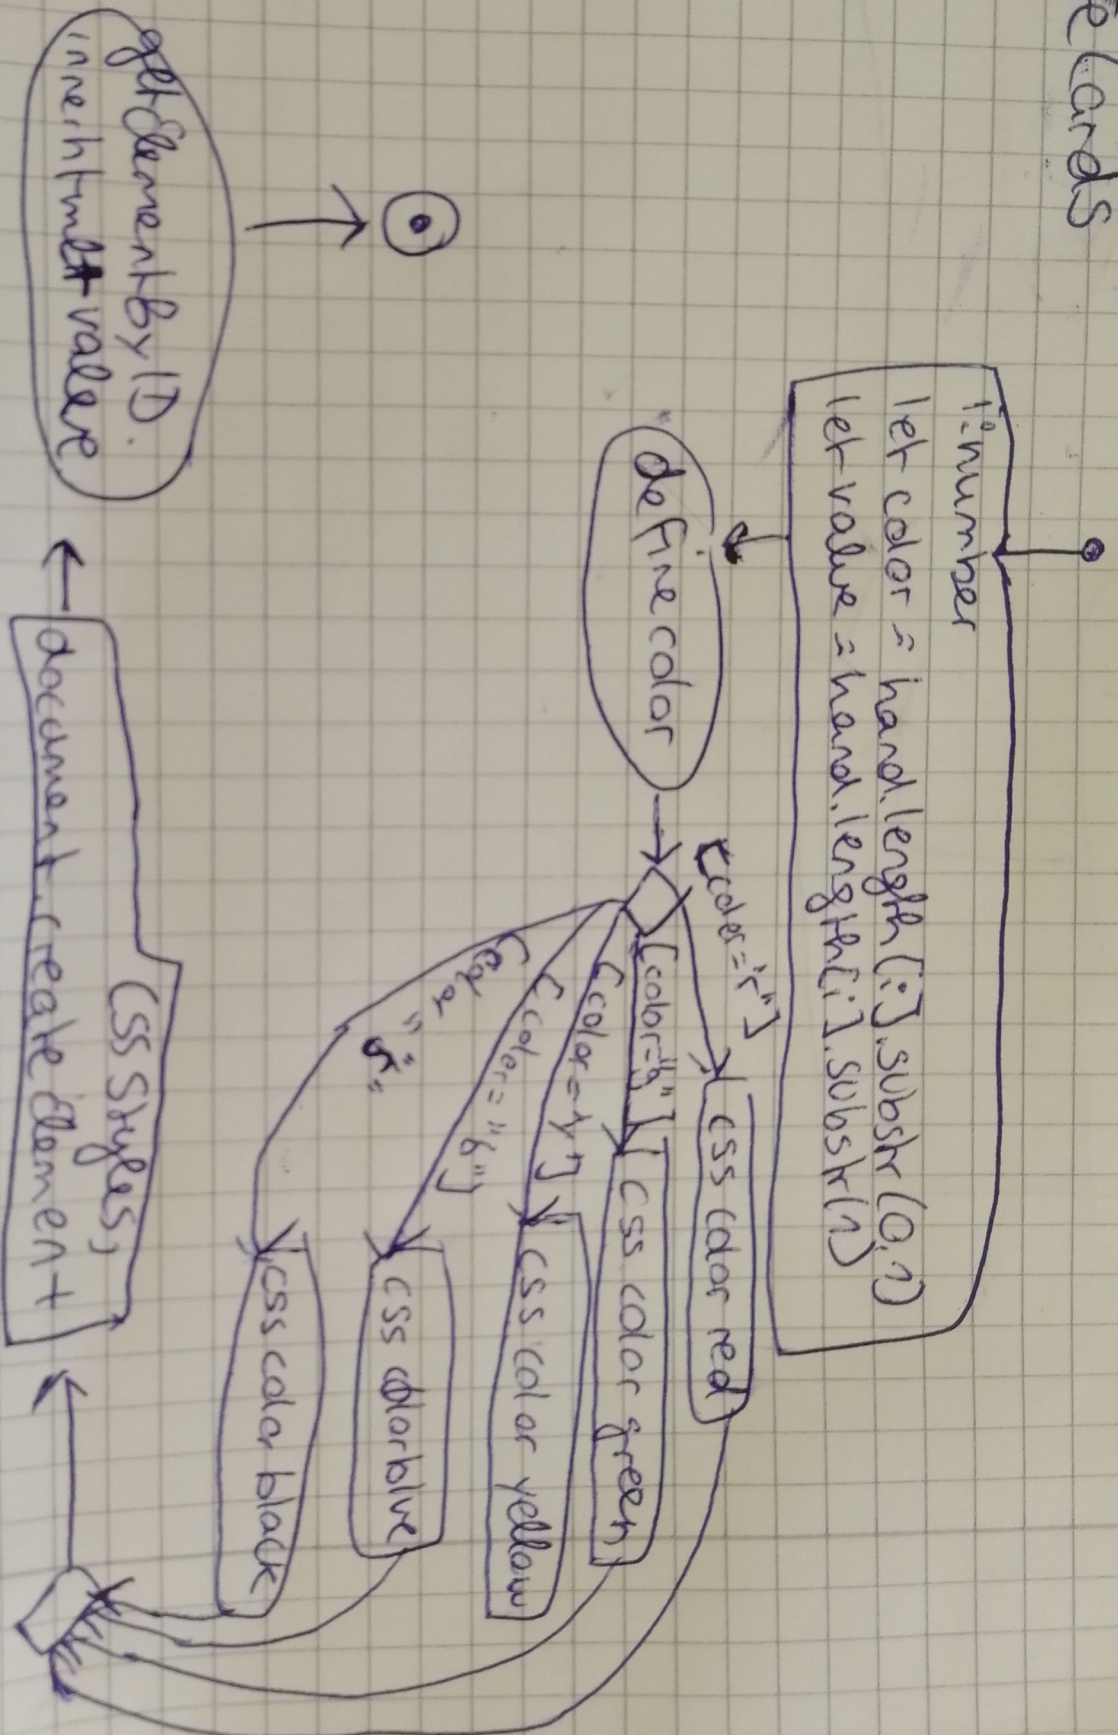

splice random Card from  
Deck and put as first card  
from pile

choose either player  
or Computer randomly  
for first turn

# create cards

getElementById.  
innerHTML value

turnPlayer

alert: "Du bist am Zug"

when hand length changes  
from original value  
(card put down or picked  
up) execute  
turn Computer

return  
unplayed computer  
card to

turnPlayer()

push card to  
pile

turnComputer

let possibleCards[]

alert: "Der Gegner ist am Zug"

check if playableComputer()

let i: number

[i > computer.length]

if response[computer[i]] = "done"

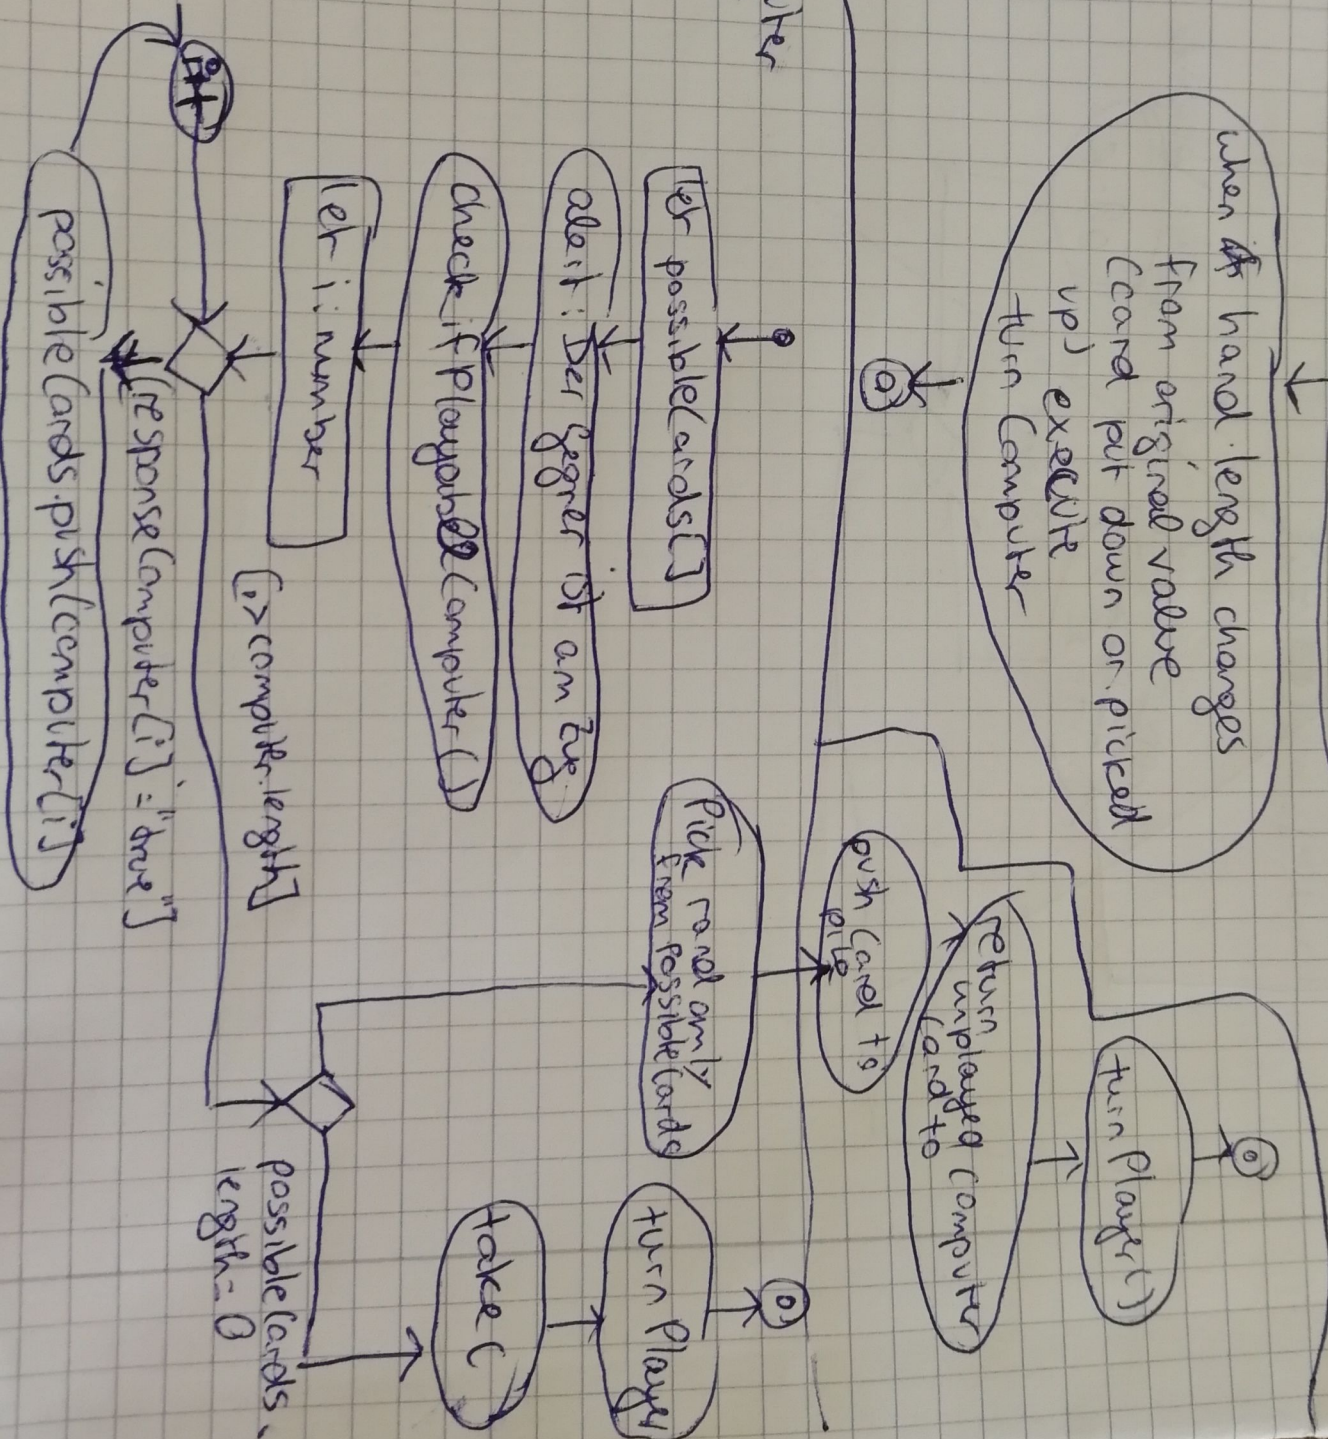

possibleCards.push(computer[i])

pick card only  
from possibleCards

turnPlayer

take C

possibleCards.  
length = 0

# checkIfPlayable
